TASKINI

Problems

- Employees struggle with task management.
- Eventually: missed deadlines, decreased productivity, and increased stress.
- Ultimately: loss of money.
- Existing task management apps lack intelligence & individualization.

MOST COMMON CONSEQUENCES

as % of people with employment problems (most serious problem only)

Solution

TASKINI

1

Personalized task management: Taskini learns the employee's work style and adapts accordingly.

2

Priority setting: Set task priorities based on urgency, importance, and personal preferences.
This can also be done manually.

3

Time counters: Determine the estimated time needed for each task and track progress.

TASKINI

4

Difficulty assessment:

Taskini evaluates task difficulty and suggests suitable approaches.

5

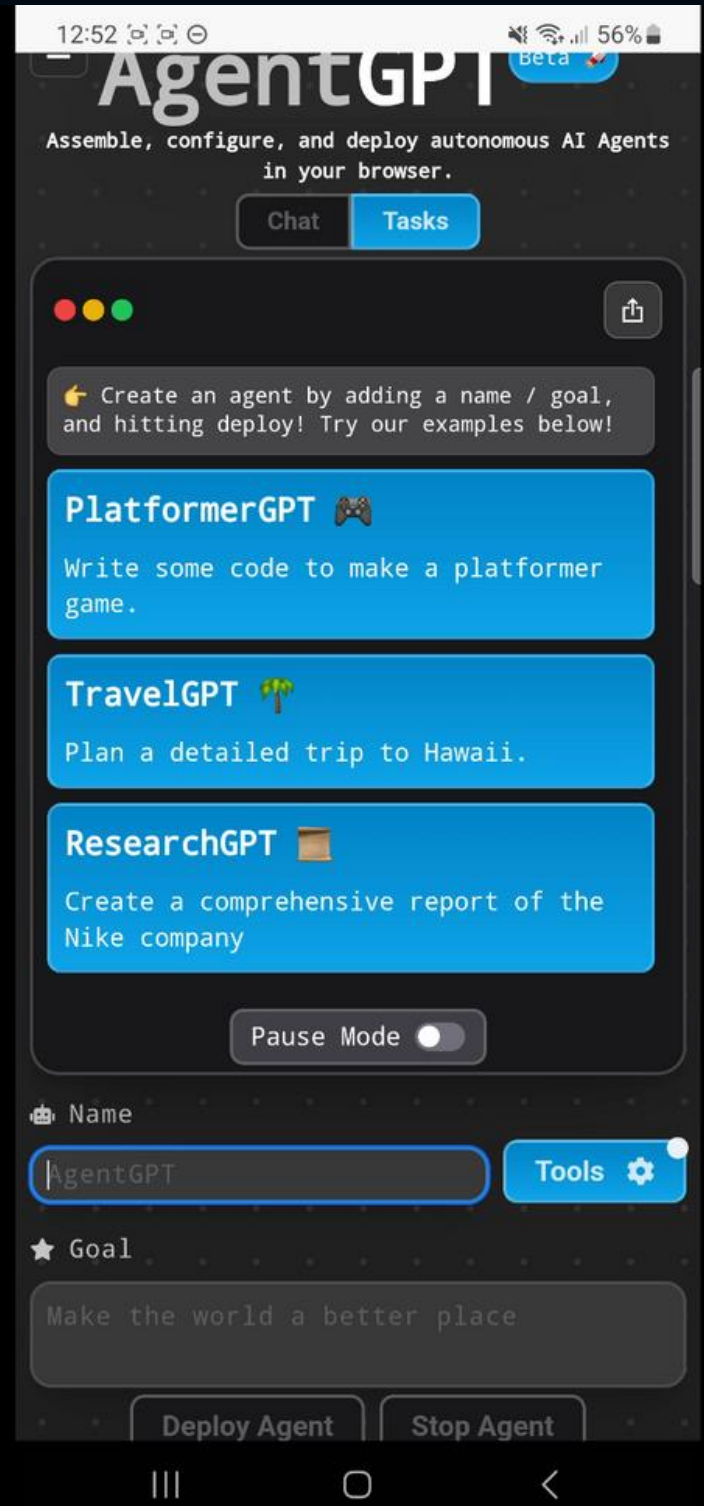

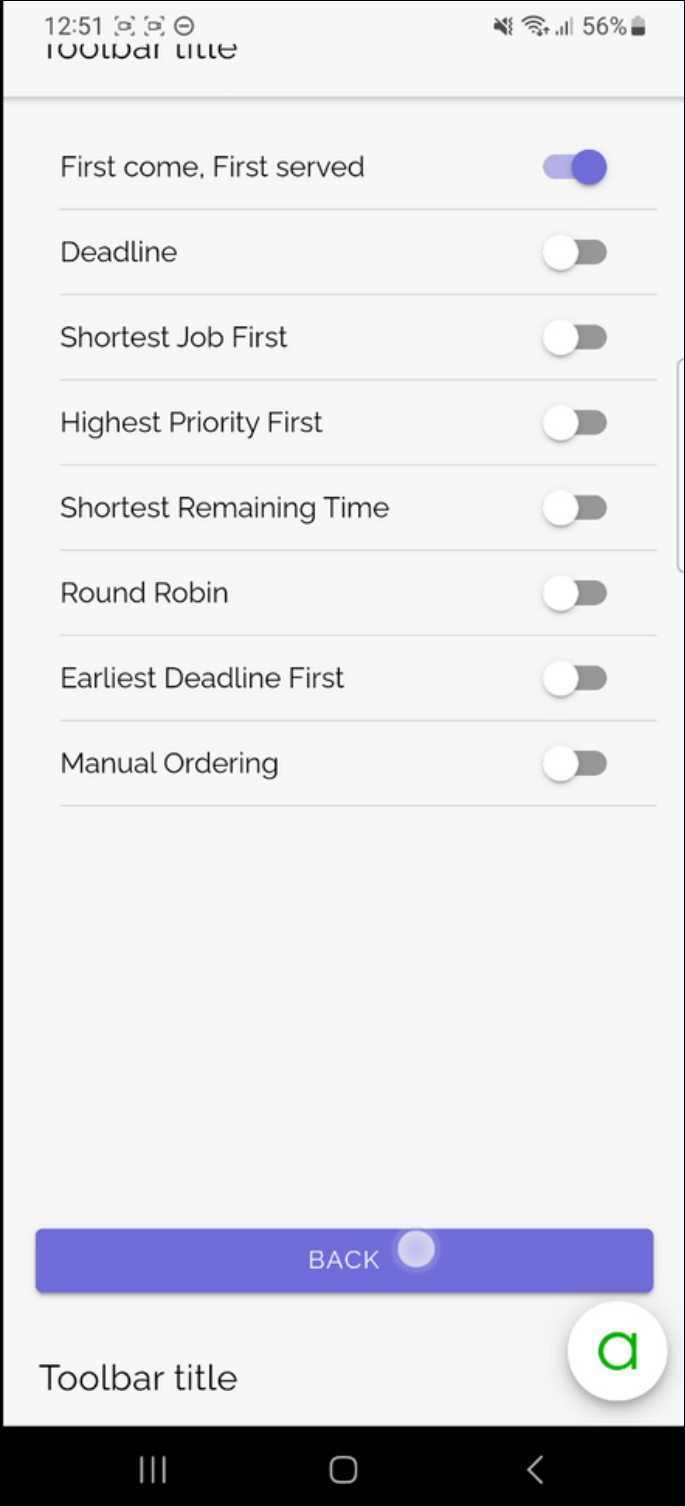

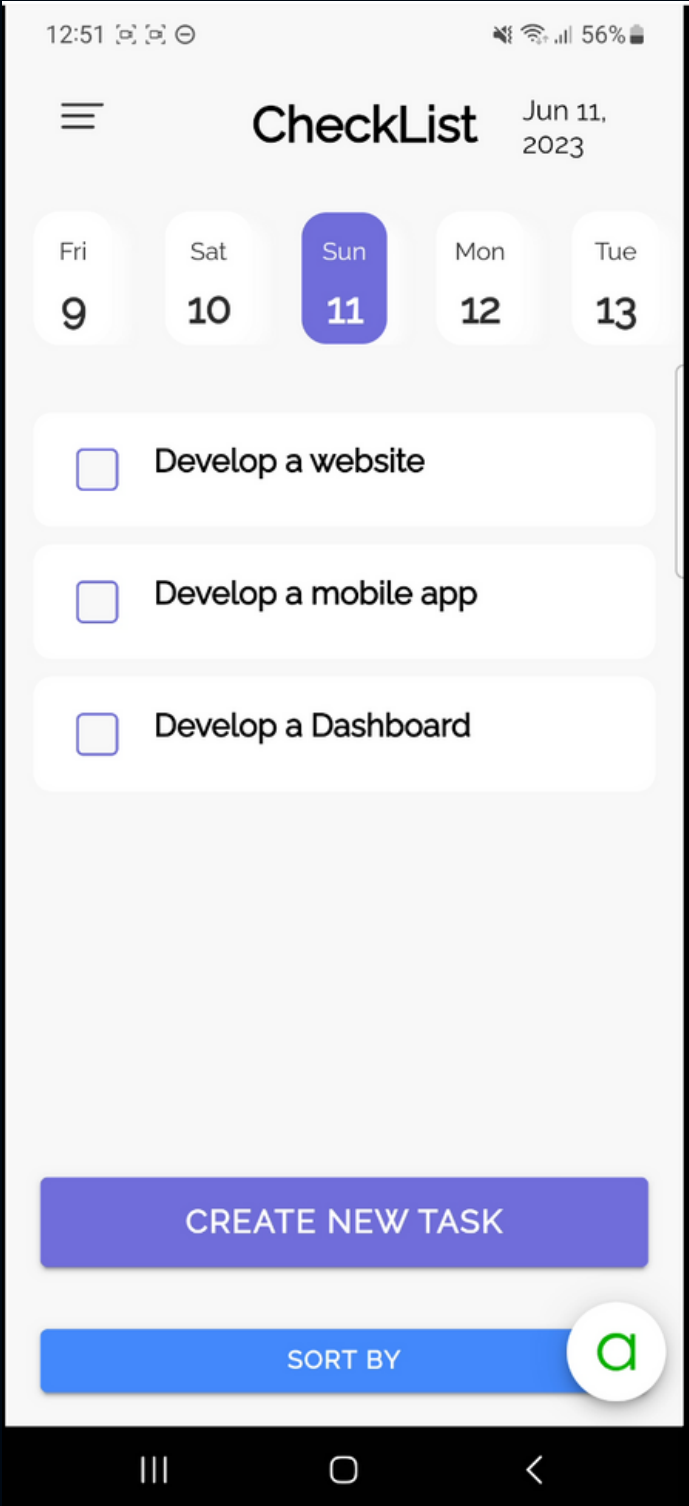

Subtask generation:

Simplify complex tasks by generating subtasks with detailed instructions.

6

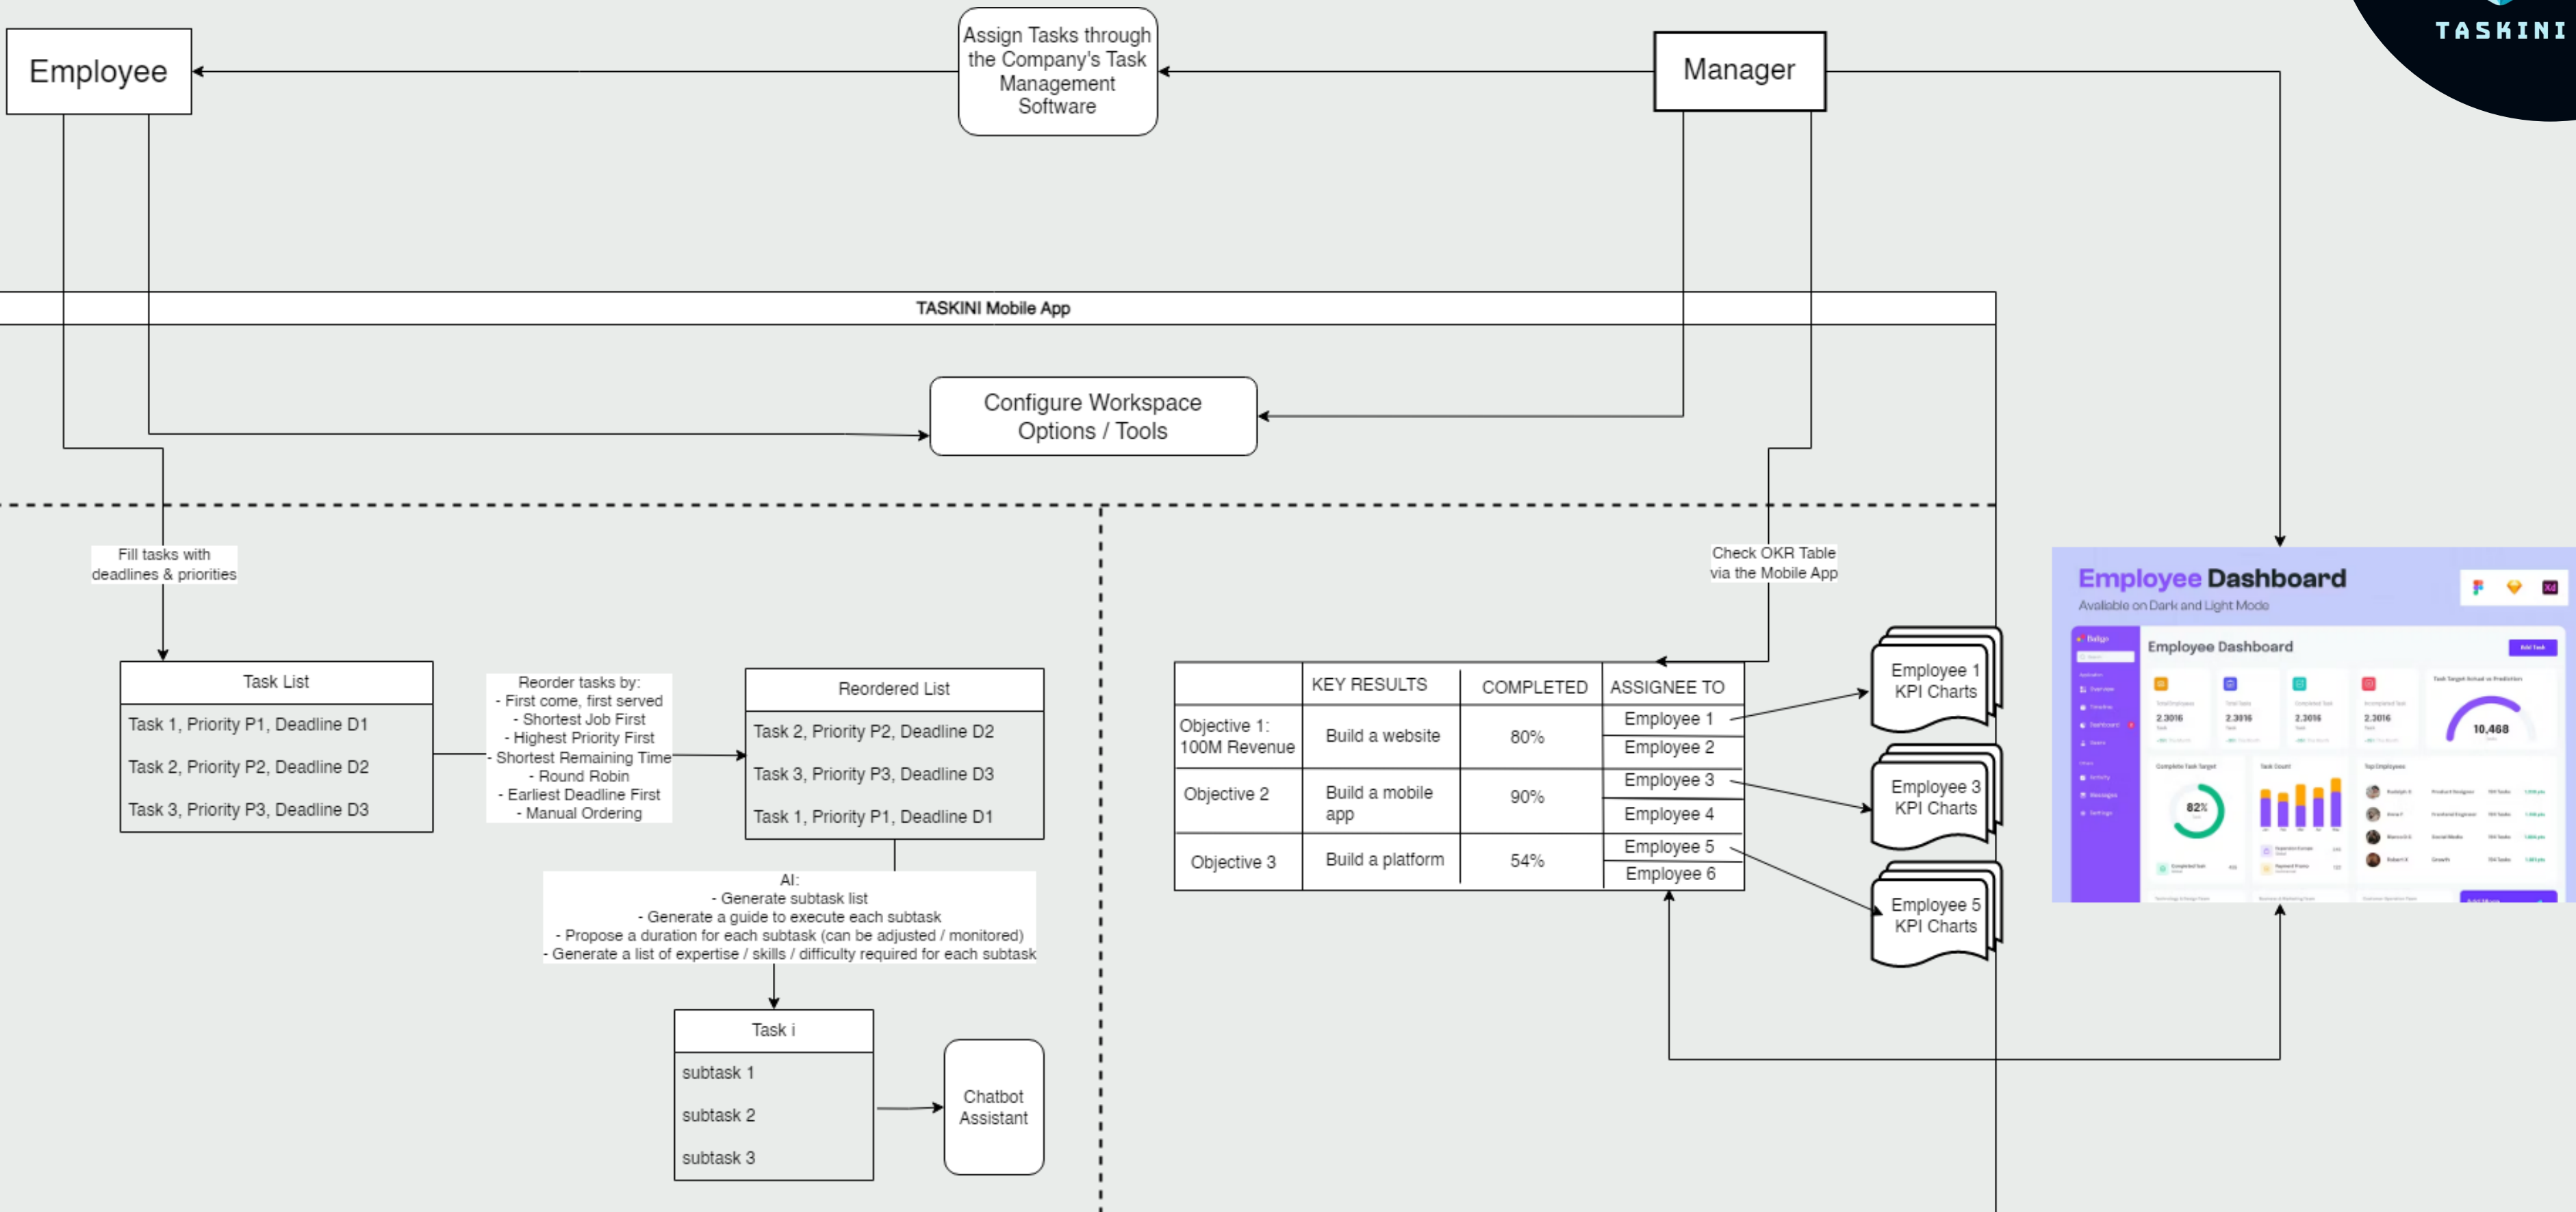

Intelligent suggestions:

Receive proactive recommendations to improve efficiency and overcome challenges.

TASKINI

Market Opportunity

- The task management software market is growing rapidly, with an increasing demand for intelligent solutions.
- Taskini differentiates itself by focusing on personalization, AI-driven assistance, and intuitive user experience.

Target Market

- B2C: all employees with access to mobile apps, including managers.
- B2B: businesses who want to develop platforms empowering employees to navigate workplace challenges.
These can be both in the Public and private sectors.
- Freelancers: Independent contractors and remote workers who juggle multiple projects and tasks.

Business Plan

- **1-month Free Trial for new verified users:**
 - They will have access to all of the features for each specific version.
 - Verified through Mobile Phone Number and Email Address.
- **After the Free Trial:**
 - **1st Version:**
 - No ChatGPT 4
 - All features Included
 - Price: 25 TND per month per user (B2C).
 - Can go down to 15 TND for Businesses (B2B) with 1000+ Employees in Tunisia and abroad for later steps.
 - **2nd Version:**
 - With ChatGPT 4
 - All features Included
 - Price: 70 TND per month per user (B2C).
 - Can go down to 60TND for Businesses (B2B) with 1000+ Employees in Tunisia and abroad for later steps.
